

USAMA ANSAR

Software Engineer | React | Next.js | Node.js | AI Integration

Lahore, Pakistan · +92 302 3951526 · usamaansar79@gmail.com · linkedin.com/in/usama-ansar · github.com/UsamaAnsar79

SUMMARY

Software Engineer with 2 years of experience building responsive, dynamic, and maintainable web applications using React.js, Next.js, Vue.js, Node.js, and Express.js. Experienced in reusable components, REST API integration, debugging, and unit testing. Hands-on experience with AI integration and interactive web experiences using GSAP, Lenis, and Three.js. Focused on clean, scalable, secure, and maintainable software solutions.

CORE COMPETENCIES

- Develop responsive and reusable interfaces using React.js, Next.js, and modern frontend practices.
- Build dynamic applications and integrate REST APIs for frontend-to-backend communication.
- Develop and maintain full-stack applications using Node.js and Express.js.
- Debug application issues, write unit tests, and improve application reliability.
- Build interactive web experiences using GSAP, Lenis, and Three.js.
- Integrate AI-powered functionality and APIs into web applications.

PROFESSIONAL EXPERIENCE

Frontend Engineer — XpertDigi | Lahore, Pakistan | Feb 2025 – Present

- Develop responsive and dynamic web applications using React.js and modern frontend technologies.
- Build reusable components and maintainable frontend architecture for scalable applications.
- Integrate REST APIs and implement frontend-to-backend communication for dynamic features.
- Debug application issues and write unit tests to improve reliability and code quality.
- Implement secure and maintainable frontend solutions with focus on performance and user experience.

MERN Stack Developer — TriconTech | Lahore, Pakistan | Sep 2024 – Feb 2025

- Contributed to full-stack web application development using React.js, Node.js, and Express.js.
- Developed responsive interfaces and reusable frontend components.
- Built and integrated REST APIs for frontend and backend functionality.
- Debugged and maintained existing applications while implementing new features.
- Worked across frontend and backend layers as a junior MERN Stack developer.

SELECTED PROJECTS

MYAIO — AI-Powered Business Growth Platform

- Contributed to frontend development of an AI-powered platform focused on productivity, SEO, and business-growth automation.
- Built responsive interfaces and reusable components for application workflows.
- Integrated AI-powered functionality and APIs into the frontend application.
- Translated complex SEO-related requirements into user-friendly interfaces.

Splicer Pro — Dynamic Product Platform

- Developed a responsive and dynamic website for a fiber-optic and networking equipment business.
- Built reusable components and dynamic interfaces for products, categories, and business content.
- Developed a separate dashboard for uploading and managing website images and content.
- Integrated frontend interfaces with backend APIs for dynamic application data.

Splicer Pro POS — Point-of-Sale Application

- Developed a custom POS system to streamline daily sales and real-time inventory tracking.
- Built responsive and reusable interfaces for POS workflows.
- Integrated frontend functionality with backend APIs and maintained application features.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vue.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, API Integration

AI: AI Integration, AI APIs

Animation & 3D: GSAP, GSAP ScrollTrigger, Lenis, Three.js

Database: PostgreSQL

DevOps & Tools: Docker, Git, GitHub

Testing: Unit Testing, Debugging

EDUCATION

BS in Computer Science

Virtual University of Pakistan, Lahore, Pakistan
